

The 2023 Paul Tickenoff Judges' Cup was created by Paul to start the new season with an educational gymnastics meet. It is to teach, correct and educate all participants involved in gymnastics, the gymnast, coaches and parents.

The gymnast have an opportunity to have their routines judged corrected and advised on what to work on and the coaches can ask any questions as to how to better compose the routines for optional, and make sure that the compulsory gymnast are doing the correct routines and finally for the parents to better understand how the scoring works and what the judges look for.

***We are also inviting anyone, Coaches, Gymnast and Parents to become Judges and learn how to judge and make some income as well.***

This competition also gives the Southern California Gymnastics Association the ability to exchange judges with other parts of the country in a "Judges Exchange Program" for certain higher level competitions.

We appreciate your clubs participation and support at this competition so we can continue to grow the sport of Gymnastics in Southern California.

Charlie Magdaleno,  
President So Cal Gymnastics Judges Association
